

## UNLOCKING eBooks

An Internet connection is required to unlock eBooks. Open the eBook you've purchased and turn to page two of the second title.

A pop-up window will appear named "DNL DRM ACTIVATION WIZARD". Choose the option "Start" then read the terms and conditions on the next screen. Choose "I agree" and then "Next".

Type your activation code in when prompted and check the box "Activate on USB Memory Stick". (Note: You must enter the exact code you have been supplied for that specific eBook – codes can't be used on another title.) Happy Reading!

For Updates to these instructions please check our website:

## Red Rocket Readers

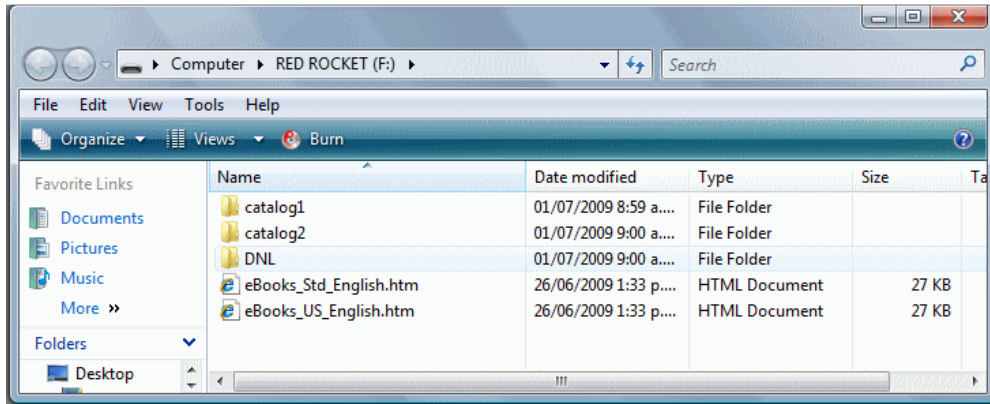

### USB Drive Instructions

1/ Insert the Rocket USB into any USB port on your computer.

2/ Open the folder to view the files on the Rocket USB. (On Mac this is automatic, on windows pc you will see an "auto play" window appear with options as follows.)

3. In the folder you will see three sub-folders and an htm file as below. Click to open the htm file: “eBooks\_US\_English.htm” (USA & Canada Customers) or “eBooks\_Std\_English.htm” (all others)

The htm file will open with your web browser (Internet Explorer, Safari, Firefox, etc.).

4. On first use, each computer must have DNL Reader installed. This is a small piece of software which allows you to open the eBook files. Click the link “Get DNL Reader” and follow the onscreen instructions to download the program. An internet connection is required for this step.

5. Once DNL Reader is installed it's a very simple process to click on each eBook cover to open it onscreen. (On Windows based PCs there is a pop up window that will appear which asks if you're sure you want to open the file – there is a check box which will tell it not to ask this question every time and once this is activated, the books will open very quickly.)

6. Navigate through the eBook using arrow keys on the keyboard or click the arrows onscreen with the mouse. The contents page has thumbnail covers of each title in the eBook which are hyperlinks to take you to the title when clicked on. If desired, activate the auto-turn feature by right clicking anywhere on the eBook and choosing “set auto turn”. Preset is 5 seconds or choose “manual” to enter any time interval.

### **PURCHASING eBooks**

Each eBook contains 8 titles. The first title can be viewed free and the eBook is locked from the second title onwards. To unlock the remaining seven titles you need to purchase the eBook by visiting our website to order online or download an order form which can be faxed or posted to Flying Start Books. Following purchase you will be sent an activation code to enter and unlock the eBook/s you have purchased.

See next page for instructions for entering the Activation code and unlocking eBooks.
